

Step 1

Send your phone away:

- using freepost envelope or label provided
- include battery (usually required)
- include unwanted chargers and accessories

Step 2

Recycler receives your phone and sends you confirmation

Step 3

Your phone is tested:

- Does it work?
- Can it be reused?
- How much is it worth?

Step 4

Phone is resold

- as an affordable mobile in developing countries
- for vital communications for medical services
- for m-commerce for rural African farmers

Step 4

Phone is recycled

- Precious metals are recovered
- Heavy metals are carefully removed
- There is less damaging waste in our environment!

Step 5

£££ sent to
you or your
chosen
charity!
